2024 SIM Expo Attendee

UNITE, COLLABORATE, SHARE

The SIM Expo is the largest interprofessional healthcare simulation conference in Canada. Join healthcare leaders in university, college and hospital sectors, comprised of administrators, educators, clinicians, SIM centre managers/directors, and researchers from all health professions.

The SIM Expo prides in its strong culture of networking, building relationships, and uniting the simulation community.

AI IN SIMULATION: ETHICS, EVIDENCE, AND EXECUTION

We're diving into one of the most transformative forces in healthcare simulation: Artificial Intelligence. Reflecting its rapid rise to ubiquity, we will explore not just what's possible, but what's responsible. From future-looking innovations to real-world applications, we'll tackle the ethical considerations, examine the latest evidence, and showcase how AI is being implemented successfully — and where it's falling short.

“

Another excellent conference. It is so enjoyable to connect with colleagues from across the country. The venue was beautiful which contributed to a retreat like feel to the conference.

L’ajout de workshop en français était vraiment apprécié. J’espère que vous allez continuer de l’offrir. Nous avons fait beaucoup de réseautage avec d’autres francophones.

“

It was lovely. What a great conference! I usually don’t attend parts of conferences but not this one. I felt like I could have stayed longer as there were so many things I was interested in.
