

ABSTRACT GUIDE

Workshop

Format & Logistics

Workshops are always a highlight of the Expo. We are able to accept a limited number of workshops this year. All workshops are 75 minutes in length.

Workshops must be at least 25 per cent (ideally more) interactive. Examples of interactivity include participatory games or simulations; facilitated discussions; individual or small group work; etc.

Workshop Abstract Structure

Abstracts must include:

- 1) Background/rationale.
- 2) Description of what will happen during the workshop, with emphasis on interactive components.

In addition to the abstract, applicants must provide 2-3 learning objectives phrased as “Participants will learn to...”.
